Building Partnerships

Camosun College recognizes that strong relationships with businesses are essential in placing students into co-ops, internships, applied research projects, and ultimately sustainable careers. Work-integrated learning opportunities are critical for developing the skilled workforce that Canada needs, but this would not be possible without industry involvement.

We supply BC industries and organizations with applied skills and competencies relevant to today's jobs. Partner with Camosun College and tap into our student work-integrated learning talent pipeline – a low-cost way to increase capacity.

WIL OPPORTUNITIES

Co-ops

Co-op work terms alternate between full-time studies and full-time paid work with one or more employers. Students complete at least two work terms (minimum 420 hours each) to graduate with a "Co-op Education" designation.

Internships

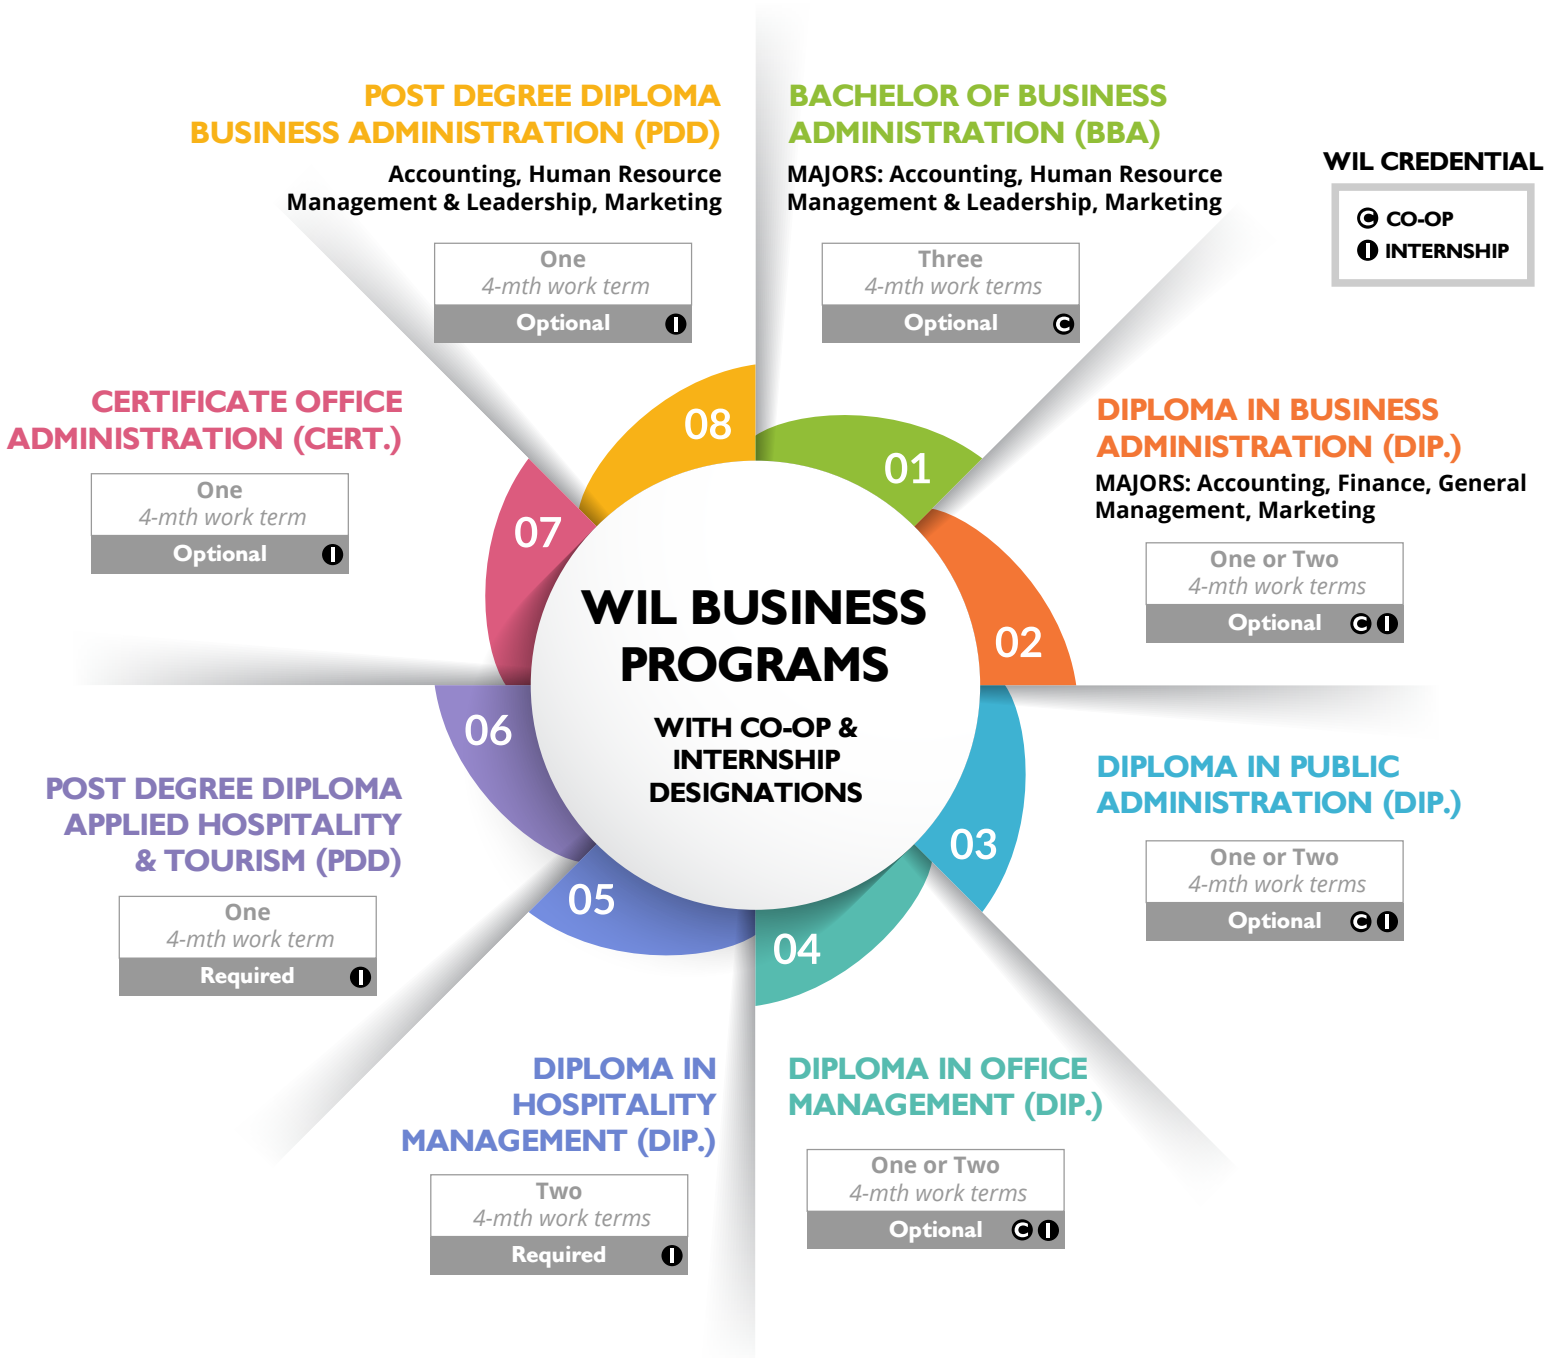

Internships are full-time or part-time work terms that can be taken at the end of a program. At least one work term (minimum 300 hours) is required to graduate with an "Internship" designation.

A man in a dark suit and glasses is standing in an office, pointing his right hand towards a computer monitor. The monitor displays a complex grid or data visualization. The entire image is overlaid with a semi-transparent green filter. The text is centered on the left side of the image.

Work-integrated learning opportunities are critical for developing the skilled workforce that Canada needs, but this would not be possible without industry involvement.

Business Programs

Work-Integrated Learning Opportunities In Business

Recruit Business Students

Canadian businesses, to stay competitive, will require talent with practical experience and applied future-relevant skills.

CAMOSUN BUSINESS PROFESSIONALS ARE LEADING THE WAY

The School of Business at Camosun prepares students with career-ready knowledge, skills, and competencies necessary to be successful in a changing business world. Our applied programs combine the practical and theoretical applications of business, which has led to over 90% of graduates finding work in fields related to their area of study.

Camosun offers more than 30 business programs, including degrees, post-degree diplomas, certificates, diplomas and university transfer courses. 97% of Camosun's Bachelor of Business Administration graduates are in the labour force.

HIRING CO-OP & INTERNSHIP STUDENTS IS GOOD FOR BUSINESS
